

Meeting Minutes (MOM) – 13 July 2026

1. General

Add Contact Person, Phone Number, and Email fields (optional).

2. Design Department

Support multiple bulk send requests.

Add BOM Print and Download options.

3. Customer Purchase Order

Merge drawings.

Add Create PO option.

Add Repeat PO option.

Show PO History.

When repeating a PO, create a new PO with new entries.

4. Sales Order

Ensure every new entry creates a new Sales Order (SO) accordingly.

5. Production Planning

Make Quantity editable.

Allow editing of Operations.

6. Module Rename

Rename the Vendor Quotation module to Supplier PO.

7. Supplier PO Print Format

Display Item Size.

Show Drawing Name in bold.

8. Vendor PO

Update the Vendor PO print format.

9. Signatures

Add Creator, Requestor, and Authorized By signature fields in Supplier PO and Purchase Order print formats.

10. Purchase Order Print

Use A4 page size and update the overall layout and formatting.

11. Merge PO

Add Merge PO functionality to combine multiple Purchase Orders into a single PO.

12. Supplier PO

Add Print option for Supplier PO.

13. Items

Add the Items feature across all modules.

14. Department Rename

Rename the Procurement department to Purchase throughout the system.

15. GRN (Goods Receipt Note)

Create GRN drawing-wise.

Auto-fetch materials based on the selected drawing.

Create GRN accordingly.

16. Quality Control

Perform QC inspection GRN-wise.

Mark material as QC Passed after inspection.

17. Inventory

Support partial material release from inventory.
